

Build a **global developer movement** around your product.

WHO WE ARE

A community of **200,000+** builders across **30+** countries.

WeMakeDevs is a global developer community built to empower the next generation of builders. We connect, educate, and amplify developers worldwide through hackathons, content, and hands-on programs, and we've become a home for emerging tech, from cloud-native and DevOps to AI and developer tooling.

CHAPTER · 03

Leading with data.

Every event is real, recent, and produced measurable outcomes, stars on GitHub, PRs shipped, and developers who stuck around long after the closing ceremony.

AI AGENTS ASSEMBLE x MULTIPLE PARTNERS

AI Agents Assemble

wemakedevs.org/hackathons/assemblehack25 · 6,000+ participants · 20+ countries

"One of the best partnership decisions we made. Real, engaged builders who showed up ready to create, the result of years of authentic community building and the trust they've earned with developers."

Juan Pa

Developer Relations · Cline

"Developers tried CodeRabbit, they loved it, and told others about it. The awareness we gained in the developer community was beyond what we expected."

Aravind Putrevu

VP of Growth · CodeRabbit

"Highly engaged audience with thoughtful questions and active discussion around LLMs and coding agents."

The very first hackathon around Kestra! With over 2,000 participants from around the world, an incredible success, brilliant developers using Kestra to create innovative projects. An inspiring milestone for the Kestra community.

Emmanuel Darras

CEO · Kestra

WHAT'S INCLUDED

We run the entire engine. You focus on your product.

01

Audience & Outcomes

- 5,000+ participants
- GitHub stars & product signups
- High-quality developer feedback that has shaped many of the tools we've worked with

02

End-to-End Management

- Full marketing & promotions
- Custom event website setup
- All registrations & developer communications

03

Execution & After

- Judging & prize logistics
- Post-event blogs & project showcases
- Social amplification across our channels

We handle everything. You get the developers, the stars, the PRs, and the movement.

Pick your **format**.

5,000+ developers try your product & give real feedback
